PROFILE SUMMARY

SAP ABAP Technical Consultant with 4+ years of experience in designing and developing SAP applications using ABAP, CDS, OData, RAP, Fiori Elements and SAP BTP. Strong experience in building Fiori applications, developing cloud-aligned technical solutions, and working on SAP Public Cloud. Hands-on exposure to RAP-based application development, form technologies, and application deployment on SAP BTP, with a strong interest in building scalable, user-centric, and innovative SAP solutions.

EDUCATION

Bachelor of engineering

Savitribai Phule Pune University

Bachelor of engineering in Information Technology, CGPA: 6.36%

India

2017 - 2020

Diploma

Government Polytechnic Jalgaon

Diploma In Information Technology, Percentage: 70.50%

India

2014 - 2017

SKILLS SUMMARY

Programming: SAP ABAP, Object-Oriented ABAP

APIs & Services: OData

UI Technologies: SAP Fiori, Fiori Elements

Platforms & Cloud: SAP BTP, SAP Public Cloud

Frameworks: RAP, Enhancement Frameworks

Data Modeling: CDS Views, AMDP

WORK EXPERIENCE

Senior Associate | PWC

April 2026 - Ongoing

Architected and delivered **RAP-based SAP Fiori** applications for enterprise business scenarios, utilizing **root-child** business object modeling, **CDS** UI annotations, and **OData service** exposure to build scalable, **cloud-aligned** solutions. Drove document output enablement through **Adobe Forms integration**, including print action handling, **form template** design, and business-critical document generation using **SAP BTP** services. Engineered robust upload and transactional data processing capabilities, supported **application deployment** on SAP BTP, and contributed to extensibility and application development in **SAP Public Cloud**.

Application Developer | IBM

June 2024 - April 2026

Enhanced **sales quotation processes** by adding custom fields and enabling dynamic data display. Developed **asset master update utilities** using selection screens for user-driven inputs.

Implemented **purchasing enhancements**, including material valuation type display in contracts & info records.

Designed **workflow solutions** to auto-trigger email notifications for disputes. Resolved **defects** in **module pool programming** and optimized existing **programs**. Created **function modules** for determination of printer. **Smart Forms** for reporting. Worked on BOM process improvements and managed change requests & **defect fixes**.

Application Developer | Atos Syntel

January 2022 – June 2024

Development and testing of **DQM Rules** using **BRF plus** application, **Fiori tiles** and **ABAP** development objects.

Execution along with **unit and integration testing**. This Includes performance test and making changes in configurations. **Requirement analysis** and preparing **technical specification** documents.

PROJECTS

AIR FRNACE – SAP Enhancement

Designed and created **tables, views, structures** using **Data Dictionary**. Implemented **User Exits, Customer Exits** to extend **SAP** functionality. Built Function Modules, Classes, and Methods for reusable and modular business logic. Developed Module Pool Programs with custom screens for data entry and validation. Worked on **Smart Forms** for **report** generation and document output. Supported **defect** resolution and change requests during UAT.

Data Quality Management with SAP MDG

DQM is a new functionality to check the **correctness** of data in database tables through **score** of correct data.

Development and testing of **DQM rules** denned using **BRF plus** and **ABAP** development Objects.

Labelling and Layout for Symrise

Creating the **label and layout** for design as per business requirement as well as **setting layout**. Creating the dimensions and providing **the design and forms** to the business. Worked on **sap security and authorization** to provide access to users. Checking **roles** and **authorization** objects as per requirements to provide **access** to user.
